

DeltaSet – Alpine Keycap Set

Alpine 键帽套装 — 样品反馈 (Sample Feedback)

PO AM20260526 · Date 2026-05-30

Thank you for the sample photos. Overall we are very happy with the set. Below are a few small points and questions. For the keys we mention, please also see the attached photo with the red boxes (next page).

谢谢您拍的样品照片。整体上我们对这套键帽非常满意。下面是几个小问题和疑问。我们提到的按键，请同时参考附在下一页的带红框照片。

1 The white (Snow) is perfect. Great work!

白色 (Snow) 非常完美，做得很棒！

2 Could the black caps be made a little more matte?

黑色键帽可以做得再哑光（更不反光）一点吗？

3 A few points about the legends (the printed characters):

- Several legends sit too close to the left edge, or are not in the right position.
- On the % / 5 key, the legend sits too far to the left.
- On the red accent cap, the symbol is not centered.
- Please see the red boxes in the attached photo for the keys we mean: F9, % / 5, & / 6, left Shift, right Shift, Win, Alt, and the red accent cap.
- Before you send me the set, will there be a final quality check of the legend position and spacing on all keys?

关于字符（印刷的字母 / 符号）我们有几个问题：

有几个字符太靠近左边缘，或者位置不对。

% / 5 这个键的字符太靠左了。

红色装饰键帽上的图标没有居中。

我们指的按键请看附图里的红框：F9、% / 5、& / 6、左 Shift、右 Shift、Win、Alt，以及红色装饰键帽。

在把这套键帽寄给我之前，会不会对所有按键的字符位置和间距做最后的质量检查？

4 Just an optional question, no problem if not: would it be possible to make the red caps shine-through (translucent with backlight), so they look like a brake light? If it is possible, we would be interested to know how it could be done (material / method).

只是一个可选的小问题，做不了也没关系：红色键帽有没有可能做成透光（半透明、能透背光）的，这样看起来就像刹车灯一样？如果可以的话，我们想了解一下大概怎么做（材料 / 工艺）。

5 On the spacebar, the dot-matrix pattern does not look centered — the space on the left and right side looks unequal. Please check the centering.

空格键上的点阵图案看起来没有居中 — 左右两边的间距看起来不一样。请检查一下居中。

Thank you very much!

非常感谢！

Reference photo – keys marked with red boxes

参考照片 — 红框标出的按键

Red boxes: F9, % / 5, & / 6, left Shift, right Shift, Win, Alt, red accent cap, and the spacebar (pattern centering).

红框：F9、% / 5、& / 6、左 Shift、右 Shift、Win、Alt、红色装饰键帽，以及空格键（图案居中）。
