

DELTASET — Packaging

Project Introduction for production · 生产项目说明

Concept · 设计理念

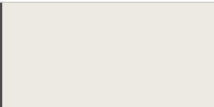

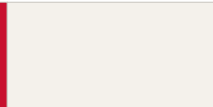

One neutral mailer box for all keycap sets, instead of a separate printed box per set. The exterior is a quiet graphite grey carrying a single large triangle — the DELTASET mark — as filled bands, cropped by the edges of the box and running across the back wall and the lid. The interior is a full red. Opening the box turns the impression from restrained to loud.

所有键帽套装共用一款中性外盒，不再为每个套装单独印刷。外部为哑光石墨灰，仅有一个大型三角形（DELTASET标志），以实心色带呈现，被盒边裁切，并从后墙延伸至盖面。内部为满版红色，开盒瞬间由内敛转为强烈。

Matt lamination on the outside, full coverage. Spot UV gloss on the triangle motif on the lid, so the mark appears only when light passes across it. The interior is printed but not laminated.

外部满版哑膜。盖面三角图形做局部UV上光，使标志在光线掠过时才显现。内部印刷但不覆膜。
